

# POWER LEDGER

Hello to the Power Ledger Community and thank you for your ongoing support for our project, during this challenging period for Crypto markets. We have listened to your feedback again, this time in regards to our token sale being uncapped - and we have an important announcement in respect to that.

But first, we are very pleased to announce an enhanced bonus for weeks' one and two. All buyers who participate in week one (which ends 3 P.M tomorrow Perth time) will now receive a 25% bonus (previously this was 15%), and in week two this will become 15% (previously this was 10%); and no changes are made for weeks three (5%) and four (0%).

The mainsale supply hasn't increased, and we changed the bonus structure to incentivize more early investors, thus helping presale investors too.

Our whitepaper made clear what we were raising money for and how we planned to split the proceeds of the TGE for our projects and strategies going forward. Power Ledger's plans are based on funding from a soft-cap for our public sale of USD \$15m. This, combined with the pre-sale funds we announced of AUD17m (USD15m) will enable Power Ledger to fully execute on its plans detailed in the whitepaper.

We also want to share details of our soft cap with you, clarifying for you, the community and our supporters, that any proceeds beyond this soft cap of USD15m in the Main Sale will be used towards renewable energy asset projects in low income communities and developing countries.

We wanted to share this with you so you can understand in more detail, our social mission and commitment to the democratization of power.
